Good Roads Convention To Be Held Here

At a meeting held in the Cosmopolitan hotel last night, under the auspices of the Crows' Nest Pass Automobile Association, it was decided to hold a convention in Blairmore on Wednesday of next week, April 2nd, for the purpose of discussing the matter of the Canadian National Highway through the Rockies.

The secretary, Mr. J. R. Smith, read correspondence that had passed between himself and the government and district representatives as well as auto clubs and councils of rural and town municipalities through Southern Alberta and South-eastern British Columbia.

At the convention on Wednesday next, it is expected that representatives will be present from all points between Medicine Hat and Cranbrook. The question to be considered has been occupying the minds of the public for a number of years and the idea of a national highway from the Atlantic to the Pacific through the Crows' Nest Pass originated with a Vancouverite as far back as 1908 or 1909. For a number of years the matter was dropped until a few years ago with the organization of automobile associations and clubs throughout the southern part of the two western provinces, the subject was again taken up.

The feasibility of the Crows' Nest Pass as the proper route for such highway stands foremost. Figures have been given, showing that even for the people of the central part of this province, the shortest and best route to the coast and the western States would be via the Crows' Nest Pass. In spite of this fact, every effort is being made by the city of Calgary, through the board of trade and other organizations to persuade the government to have the highway constructed through Calgary, Banff, Windermere to Nelson via Lardo and Kaslo. Several reasons have been set forth, however, showing the above route as being impracticable, the principal of which are as follows:

Firstly—On account of the tremendously high initial cost of the Calgary proposed route as against a comparatively small cost of such road through the Crows' Nest Pass.

Secondly—The route proposed via Calgary was of little or no value to actual settlers.

Thirdly—Because the Calgary-Windermere route would be practically closed to traffic for seven to ten months of the year on account of snowdrifts, etc.

The road through The Pass would start at Medicine Hat and come through the following settlements, which have a total population of about 60,000 people: Medicine Hat, Three Persons, Bow Island, Burdett, Grassy Lake, Taber, Lethbridge, Monarch, Macleod, Pincher, Cowley, Lundbreck, Bellvue, Frank, Blairmore, Coleman, Crows' Nest, Michel, Hosmer, Fernie, Elks, Morrissey, Jaffray, Warden, Cranbrook, Moyie and Nelson. The exact route west from Nelson has not yet been determined.

Mr. A. M. Morrison, of Coleman, informed the meeting last night that the minister of public works, Hon. A. McLean, had promised that at least double the amount of money spent last year on the road through the Pass would be spent this year on repair work by the Province. Most of the money spent last year was on the grading of the new road around Crows' Nest Lake, which cost in the neighborhood of \$12,000.

A large amount of money is paid annually to the Dominion by way of royalties on coal produced in the Crows' Nest Pass and those in attendance at last night's meeting

Local Ice Manufacturers Must Pay Up.

The regular meeting of the town council was held recently, Mayor Evans and Councillor Morency being present, Mr. Montebello and Mrs. Morency being present. The minutes of last regular meeting were approved and the following accounts were passed for payment, subject to the usual o.k. of the various committees: Western Municipal News, E. J. Pozzi, Blairmore Hardware Co., E. Vigne, Illiche Patterson Co., Alberta Government Telephones, F. Wright, J. M. Carter, Ben Dorothy, Alex. Morency and peti cash aggregating about \$475.00.

The Blairmore Hardware Co. complained of meters having been tampered with, several having been returned to them in a somewhat damaged condition, showing evidence of screwdrivers having been used in an effort to reverse meter records, which is a criminal offence. This was the subject of a meter in use being tampered with in service. Most of the meters in use are 5 ampere single phase, and in many cases were being overloaded by the use of electric irons, percolators, toasters, furnaces, etc., at the expense of the town. After considerable discussion, a resolution was passed ordering that where necessary said meters be taken out and replaced by the ten-ampere meter.

A resolution was passed by the City Council of Blairmore endorsing the action of the city council of the village of Toronto in the consolidation of railways, etc.

Until its gas tank was placed in the hands of Councillor Montebello for consideration.

Councillor Morency reported having surveyed several blocks of ice that had been manufactured by citizens through the use of the town's domestic water supply, amounting to about 300 tons. Water for this purpose was being paid for by the consumers at the rate of about 50 cents per month, but as this was consuming our water supply for which no provision is made in the waterworks regulation, Councillor Morency felt that the town was entitled to a rate of at least 25 cents per ton of ice and urged that steps be taken for the collection of this rate, which would bring about \$500 into the treasury of the town.

It is expected that the miners of District 18, U. M. W. P. will strongly oppose the One Big Union project.

Estray Notice

A young mare, black, with short grayish tail, three white feet on knee, in like condition, may be had on application to A. Compton, at the Crystal Dairy, Blairmore.

FOR SALE

Exceptionally well built five-roomed house, with big front room and back veranda, two lots and outbuildings, fine location in Blairmore. If you are in need of a good home, this is the one—will be a good investment for a rental. Come and look it over any evening after 6 p.m.

Geo. H. Snod

12th Avenue Blairmore

were unanimous in the opinion that at least \$250,000 of this amount might be spent on that part of the national highway passing through such revenue producing district.

Great interest is being manifested in the convention that is to take place next week, and it is hoped that the efforts of the people of Southern Alberta and South-eastern B.C. will not be in vain on this occasion.

The meeting on Wednesday next will convene at 8 p.m. at the Cosmopolitan hotel and will be open to all interested in this important question.

Bar Alien Immigrants

Ottawa.—Entry to Canada of immigrants of German, Austro-Hungarian, Bulgarian or Turkish races or nationally has been prohibited except with the permission of the minister of immigration and colonization.

Caschets Work While You Sleep

No headache, biliousness, upset stomach or constipation tomorrow.

Spent 10 cents—feel great! To night take Caschets to clean your liver and clean your bowels. Stop the headaches, bilious spells, stomach gases, coated tongue, bad breath, salivation, etc., and enjoy the easiest, gentlest "inside cleansing" you ever experienced. Wake up feeling fine, Caschets is best cathartic for children. Take like a vitamin and disappears. Thirty million boxes of this harmless, famous cathartic are sold each year now.

Protected by Machine Guns

Berlin.—The diet at Munich was opened to the accompaniment of a strong military display, according to Munich dispatches to the Zeitung Am Mittag. All the entrances to the building were strongly guarded and machine guns were posted on the roof. Militia and police were distributed throughout the house.

The deputies and the newspaper men were searched for weapons before they were allowed to enter. No one was allowed in the galleries, except the press gallery.

A joint plowing match is being arranged by four locals of Grain Growers in the vicinity of Guernsey.

Over 4,000 school children are now enrolled in the public schools of Regina.

Stomachs tire of the same diet.

When the appetite becomes jaded, it's surprising how quickly the digestion responds to a saucer of

SUNDAY SCHOOL LESSON

LESSON FOR MARCH 30, REVIEW—GOD'S HAND IN A NATION'S LIFE

Since Israel was a theocratic nation, perhaps the best method of review will be to trace God's hand in that nation's life. Israel was led, fed, clothed and disciplined by God.

Lesson I. God's hand is clearly discernible in the experiences of Israel in Egypt. Israel was to be the religious teacher of the world, therefore the nation must sojourn in Egypt the most advanced in learning of any nation at that time. In order that Moses, the great lawgiver, might be equipped with the best possible education, God used Pharaoh to oppress the people. This oppression served a threefold purpose: (1) It served the testimony to the Egyptian nation that the living God was the God of Israel. The more they oppressed them, the more they multiplied. (2) It served a benevolent purpose in bringing the nation into its own. It required the creation of a nation built in purity into its own. (3) It made the nation willing to leave Egypt and go to Canaan, the promised land. Had not the hand of oppression been upon them they would have chosen to remain in Goshen.

Lesson 2. When Israel was ready to go to Canaan, God had a leader ready for the difficult task. His parentage, education at his mother's knee, and at Pharaoh's court, and communication with God in the desert of Midian had equipped him for this work.

Lesson 3. Though enslaved by a powerful nation, God undertook freedom for Israel, and by ten telling strokes—the plagues—he tore the shackles from their hands and set them free. The Passover is a memorial of that blessed deliverance.

Lesson 4. God opened the Red sea and made a path of safety for Israel to cross, but overwhelmed Pharaoh and his hosts in the sea.

Lesson 5. Israel bitterly complained when they faced the wilderness without food. God sent them manna and quails. The manna did not fail them until they came into Canaan.

Lesson 6. God sent Jethro to give needed counsel to Moses. The strength of Moses was about to break. God took one outside of the camp, the wealth of Israel and through him communicated the wisdom which Moses needed to save him from collapse through overwork.

Lesson 7. At Sinai Israel was ordered to exist as an organization, according to the statement made by Gustav Blumenberg, former leader of the ultra radicals, who bore a closer resemblance to the Russian Bolsheviks. The riots engineered a few weeks ago by returned soldiers who objected to the expounding of Bolshevik doctrines on the market square effectually put the quietus on the Socialist movement in this city. According to Mr. Blumenberg, the secretary of his organization fled to Minneapolis, Minnesota, when the riots occurred, and his resignation has since been received from that city. "We have no secretary, we have no club rooms, we have no membership, so we have no party," declared Blumenberg.

Lesson 8. God's hand is seen in his burning anger against the nation for turning away from him to worship the golden calf. He is a jealous God; he will not tolerate a rival.

Lesson 9. Through unbelief the spies are sent to search out Canaan. When they were urged to take possession of the land according to God's promise they rebelled. Because of this failure God caused them to wander in the wilderness for 38 years.

Lesson 10. When God's disciplinary measures had run their course the people were back again upon the borders of Canaan. Joshua was chosen by God to lead the people, as Moses' time to repeat had come.

Lesson 11. In the crisis of refuge God proved that salvation should not take the place of justice.

Lesson 12. Before Joshua's death God through him set forth the conditions upon which the nation's welfare could be maintained, namely, whole hearted obedience to God and separation from their wicked neighbors.

To Erect Exhibition Buildings

Calgary, Alta.—The industrial exhibition is about to commence buildings at Victoria park. The buildings to be erected this year will be a general grandstand, seating eight thousand people, costing approximately \$80,000, and a fireproof cattle barn and sale ring, seating about eighteen hundred people under the same roof as the cattle stable. The cattle barn will likely accommodate between two and three hundred head.

Establish Atlantic Telephone

London.—The establishment of wireless telephone between Ireland and Canada is announced by the Marconi company.

THE best horsemen in America have given the COMPOUND an enviable record as being in good condition and his system will resist disease. Regular doses prescribed will cure Distemper. SPOHN MEDICAL COMPANY, GOSHEN, INDIANA, U.S.A.

Alberta Coal Possibilities

Local coal operators estimate that \$10,000,000 are sent out of western Canada annually for Pennsylvania soft coal, which might be supplied by Alberta mines if a revision of the freight rates could be secured and other difficulties adjusted. The Alberta bureau of industrial research is asked to take up this problem, and if a solution is found, Alberta mines will have a market for 2,000,000 tons more coal annually.

Wise mothers who know the virtues of Mother Grind's Worm External always have it at hand, because it proves its value.

Three cars of creamy butter have been sent from Saskatoon to the city of New York as a trial shipment.

London.—The German submarine U-39 at Cartagena, Spain, and the remaining German submarines at Ferrol, have been seized by French tugsboats, according to a dispatch from Madrid.

Miller's Worm Powders are par excellence the medicine for children who are fond of suffering from the ravages of worms. They affect the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonic to the body. Effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders, from such a cause.

CHILDREN NEED HELP
Speaking doesn't cure bed-wetting, this is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

Nasty Throat Dropings Catarhal Discharges Quickly Cured

Doctors recommend Catarhalone. It is natural, pure, clean. It drives out the germs, heals sore spots, cleans away every vestige of Catarhal.

You send the sooty vapors of the pine woods, the richest balsams and healing essences right to you because of your cold by inhaling Catarhalone. Little drops of wonderful aromatic power are distributed through the whole breathing apparatus by the air you breathe. Like a medicine that's a hooray! Catarhalone cures bronchitis, Catarrh, cold, and irritable catarrh. You can't breathe its healing fumes, and every trace of disease fees as before.

So safe, infants can use it, so sure to relieve, doctors prescribe it, so beneficial to invalids, so inexpensive that no person can afford to do without Catarhalone. Used in thousands of cases without failure. Completely guaranteed and is guaranteed to cure; smaller size 50c, all dealers or the Catarhalone Co., Kingston, Ont.

New Industry For Canada

Musk Ox Next Best Thing to Government Bond.

A vast pasture area and two hardy and prolific bearing breeds of animals to graze upon it—such is the aspect in which Vilhjalmar Stefansson, down out of the Arctic on a visit to civilization, sees the untravelled and unknown Canadian acres north of Great Bear lake. The two breeds to which reference is made are the reindeer and the musk-ox. Of the latter Mr. Stefansson says: "It has meat like a beef animal, wool like a sheep, milk much richer than the cow's, is able to defend itself against wolves, does not roam, and can live in the open and thrive and eat its own food all winter."

The reference to a possible new future industry of northern Canada was made by Mr. Stefansson in an address before the Canadian club on a recent topic of "Northern Canada's Future as a Great Country." A large crowd attended the player in the new banquet hall of the Royal Alexandra. The speaker, whose lean, pleasant face and shock of intractable hair gave him a singularly boyish look, delivered his talk in an easy, semi-humorous manner. In part he said:

"You know a great deal about Canada, and it is regrettable that much of what you know is not so. It is well-known that Canada has great resources in her southern portions; but, without mentioning the minerals or the fisheries of the north, all I would like to say that the grazing possibilities are the most important aspect of Canada's northern half. Most people would scoff at the idea that it is colder on the shores of Lake Winnipeg than on Herschel Island—yet the records of the weather bureau of the two places show that the average temperature along Lake Winnipeg during the past twenty-five years was 35 below, while on Herschel Island it was only 54°."

The aviator, well in Manitoba is however, that the average rainfall in northern Canada. The latter district is generally regarded as a region of short summers; but you have a summer ample long for the development of a comparatively luxuriant vegetation edible for grazing animals. The grazing lands in the settled portions of North America are generally those where it is too dry to raise crops—and this million square miles in northern Canada will produce more vegetation for grazing than these areas that are merely reserved for pasture because they are high land."

"It was because civilization started in America near the equator that the sheep, pig, horse and cow are our domestic animals. These animals are not suited to our climate. You have to coddle them too much. Obviously the sensible thing is to select animals adapted to the climatic conditions, so that they can subsist naturally without being coddled."

"Now, there are two such animals. One, that we can show results with already, is the reindeer, the domestic reindeer. A few years ago the United

States thought it would be a good thing for the Eskimos of the north if they could supply them with reindeer. So they sent 200 and 300 reindeer and a dozen Lumberjacks to look after the reindeer. Most of these deer died on the way, but later 1,250 more were secured from Siberia and sent to northwest Alaska.

"Fifteen years ago a friend of mine wrote an article on the future of the reindeer in Alaska. This friend, Grawen, a relation of the famous Bell family that founded the telephone, prophesied that within 25 years reindeer meat would appear on the American market. Immediately he was bombarded with letters, especially from Alaska, from people who knew that things of that sort never happened! In fact, one of the men that wrote the most definite letter was the head of the United States geological survey for Alaska.

"Well, 15 years are now past, and instead of reindeer meat destined to appear on the American market ten years from now, it appeared two years ago. And there are now 140,000 reindeer in Alaska. The man who introduced the reindeer meat into the United States was one of the Laplanders who was in the vicinity of Nome in 1899 when gold was struck there. He was one of the far-sighted men who recognized that Nome was a permanent proposition; and, as he grew rich from his investments there, he increased his holdings in related enterprises to \$4,000."

When first he offered meat on the American market he offered it at a few cents below the price of beef; but later, he put the price up higher than beef. He not only sold the best in the States, but he shipped some over to England—and now the market in London is ready to take all the reindeer meat he can send out next year.

"The point of all this is that reindeer have lived and thrived in that country where there are millions of square miles adapted to their culture. I mentioned that there were two animals who had proved themselfs adaptable to the climate of the country. The other and more valuable animal is the musk-ox, improbably so called. The meat of the musk-ox cannot be distinguished from beef. The musk-ox is about 2½ or 3 times the size of a sheep, that is, about 700 pounds. It is like a sheep in having wool—15 pounds of wool of the same quality as sheep's wool and three times as abundant. Milk tests show that the milk of the musk-ox is richer in cream than cow's milk."

The place where the musk-ox is at present most abundant is a strip of land near Chesterfield Inlet, where the Eskimos are afraid to go because of the Indians and the Indians are afraid to go because of the Eskimos.

The reason the musk-ox chooses uninhabited areas is that its peculiar method of defence against attacks makes it liable to extermination by man. When attacked, the herd will form into a close circle, with the females and calves in the centre and the bulls ranked around the outside. They do not run, they just stand still and, of course, although this mode of defense is admirable against a wolf pack, it is quite useless against men and guns, in fact, invites extinction of the whole herd.

Another advantage of the musk-ox is that he does not roam. In grazing, he merely eats the herbs close at hand, lies down, then gets up and eats again, only moving as he browses. He will thus only move about 35 miles a year in a fertile region.

"Now I have described to you a breed which has meat like a beef animal, wool like a sheep, milk richer than the cow's, is able to defend itself against wolves, does not roam, and can live out in the open and thrive and get its own food, all winter. As a matter of fact, the musk-ox is fatter in the winter than in the summer. If all these things are true—I trust, we'll do the honor to the association, for the moment at least, that there are—in the musk-ox, you have an animal that is the next best thing to a government bond."

"I have found that big men are very easy to approach in matters of this sort; and so I have talked with Sir Robert Borden and Hon. Arthur Meighen of the Canadian cabinet, and Messrs. Lane, Redfield and Houston, of the U.S. departments of the interior, of commerce, and of agriculture, respectively. They have looked upon the matter favorably; and bills asking for appropriations to develop the musk-ox will be laid before both the Canadian and American parliaments. If this project is taken up exclusively, northern Canada will become the great grazing ground for musk-ox on the North American continent."

"When you think of these grazing lands, you get a new conception of our country. Instead of thinking only of the fertile strip along our eastern edge, you think of it as a domain, with no waste areas—territory to the south and an ideal grazing ground to the north."

Nurses Advise

Zam-Buk, because they have proved that it does what is claimed for it. Miss E. L. Doxey, graduate nurse, of the University of Alberta, recently said: "I have a patient who suffered terribly with piles. Zam-Buk is the only remedy that gave her relief."

"I have used Zam-Buk myself

for the same ailment, also for sores

and burns, and have the greatest

confidence in it."

Zam-Buk

A Floating Electric Power Station

Used to Great Advantage During the War

One of the many British "freak" vessels produced during the war is the floating electric power station, officially known as C.D. 258. Although it was formerly a ship, it was under the control of the war office, not the admiralty, having been secured for the service of the Directorate of inland waterways and docks. Its function was to supply electric current when and where required for the miscellaneous operations of this department in connection with docks, harbors and canals used for military transport. At a distance this vessel might pass for a gunboat without guns; technically it is described as a steel barge. Amidships is a complete electric power station of 1,000 horsepower, designed so that practically any type of electrical installation can be fed from this source. Two oil tanks, each with a capacity of 20 tons and an electrically driven workshop with lathes, drilling machines, and other various tools, were installed on the deck of the vessel.

"The universal electric provider" is the direct outcome of war conditions, similar equipments are likely to be very useful in the construction of sea and river works. They are also worth considering for the permanent supply of electricity to riverside towns where owing to the nature of the soil, subsoil and other local conditions, an ordinary power station would be difficult of erection on a site convenient for water and fuel supply. In remote parts of the world a floating oil power electric station could probably be installed and run much more cheaply than a land station.

Edmonton Planning New Theatre

Edmonton, Alta.—A fine new picture play house is in prospect for this city. It will be at the corner of 101st street and 102nd avenue, opposite the Racine store, where construction operations are being planned to begin May 1 on a \$250,000 building for the Alberta British Cinematograph company. Edmonton capital is interested in the undertaking, and the company will be incorporated under the laws of Alberta in the course of the next two weeks. F. N. V. Smith, an experienced motion picture producer from England, is the main promoter, and associated with him are the Marquis of Queensberry and Capt. James Anderson.

A division of the Northwest Mounted Police is to be established in British Columbia, with headquarters at Grand Forks.

In Misery FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oakaloosa, Iowa—"For years I was simply in misery from a weakness and awful pain in my womb which seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I am now perfectly recovered and recommend this valuable medicine to others who suffer. For it has done such good

work for me and I know it will help others if they will give it a fair trial."

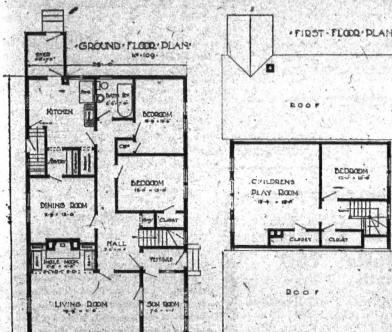

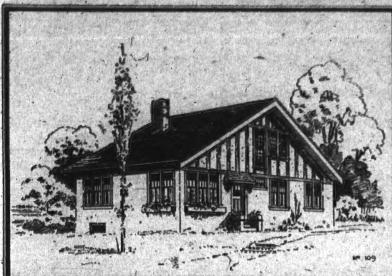

—Mrs. Lizzie Colver, 108 8th Ave., West, Oakaloosa, Iowa.

"Will women drag along from day to day, year after year, in misery and pain such as did Mrs. Courtney when such letters as these are continually being published? Every woman who suffers from displaced womb, frequent miscarriage, uterine inflammation, nervousness, or pain, or pain passing through the changes of life should give this famous and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service."

The brand of popularity that one can buy isn't worth the price.

Farm Architecture and Building

A PLEASING BUNGALOW

This bungalow is suited either for the city or country

Building Codes Result in Waste

Should Be So Made That It Can Be Revised.

"Probably the most tremendous waste in building is that resulting from the lack of laws regulating building construction existing in the form of state and municipal codes," says the American Architect. Efforts must be made to make the codes flexible, to meet the inevitable wastes.

"The preparation and enactment of building codes," the article says, "is generally a slow process, being usually in the hands of commissions or committees appointed for that purpose. The personnel of these are often uninterested, being dictated by political or private interests or compounded of too many honest and well-intentioned persons whose competency based on broad experience and real practical knowledge is questionable."

"The code should contain only the minimum requirements that are necessary to insure that a building is structurally safe and sanitary, with adequate provision for fire-prevention and safety to life. Following antiquated precedents, most codes are specifications in effect, long winded and often contradictory in their provisions. It seems ridiculous that a law should describe, in infinite and verbose detail, how mortar should be mixed or shingles laid. These things are within the province of the architect's activities, and belong in his plans and specifications which are always subject to the approval of the building departments."

"A code should be so made that it can be revised as fast as progress in building construction takes place."

"A city which has an improper building code is handicapped and its growth hindered by the burden of useless costs incorporated in building construction. The intelligent investor in such projects will look for cities in which the building code is so constructed as to insure a quick return for his investment, to which every interest is entitled. It needs no argument to substantiate the fact that the size of the building industry in any community is the index of its prosperity. If then the interests of the industry at large, architects, engineers, contractors, material producers, realtors and citizens generally, to make the proper revision of building codes now, the first order of business."

B.C. Catch of Fish Sets Record
Prince Rupert, B.C.—The February fishing business resulted in the largest catch for that month of any year since the industry began to be developed at this port. Halibut to the amount of \$24,800 pounds passed through Prince Rupert in February, establishing a new record.

The brand of popularity that one can buy isn't worth the price.

WORKING DRAWINGS AND HOUSE PLANS

Working drawings of the buildings shown on this page every week may be obtained from the Editor at the nominal price of \$3.00 per set. In the case of this design the working drawings may also be obtained through the local lumber dealer if he is a member of the Western Lumbermen's Association.

New Nurses' Home Proposed

Regina, Sask.—The city commissioners have instructed to prepare a suggestive construction program for the present year. One of the building propositions is a new nurses' home.

Up to Feb. 22 the people of Port Arthur and Fort William had purchased \$10,227 worth of war saving stamps, or an average purchase of 33¢ per individual.

Bad Blood Fatal To Good Looks

Easy Enough to Restore Both By a Simple Home Remedy That Costs But a Quarter

Bad looks and bad health go together. To look young, to be happy, to enjoy life, and to be always at your best you must keep your blood pure, your liver active, your body well rounded. These are the prime essentials to a happy, healthy old age.

If you want a positive guarantee of good health, you can easily find it in regular use of Dr. Hamilton's Pills, which for forty years have been keeping thousands of people in the pink of condition. It's no secret that these pills are composed of certain extracts and herbs that search out disease, that regulate, tone and strengthen the system.

If in need of better health, if lacking in strength, if subject to headaches, blood disorders, constipation, lack of appetite, and indigestion, fit to eat, you will be cured quickest by using Dr. Hamilton's Pills, sold everywhere in 25c boxes.

Promoting Housing Scheme

Council of Winnipeg Asks Architects to Co-operate

Winnipeg, Man.—The council of the city is promoting in the interests of the country a housing scheme whereby returned soldiers and others may obtain the benefit of the offer of the Dominion government on which money will be loaned on small houses erected during the year. The city has asked the Manitoba association of architects to co-operate with them in this matter, so that decent cottages can be built along the most modern lines and improvements and the architects of the city are at present working out designs for these small houses, to be submitted to the housing committee of the city council, who are to be commended for their action in asking the Manitoba architects' association to co-operate with them on such an important matter. Both the imperial government and the American government have followed along the same lines.

The Spring Rains Bring Grippe

This sort of weather brings colds and grippe. If it's just a common cold people say, "there's no danger in that!" But many a fatal sickness begins with a cold—with vitality weakened—the system is ready for the influenza germs. Begin early to ward off the attack. Purge the body of the toxins (poisons) by taking castor oil, or a vegetable laxative made of Mayapple, leaves of aloe, and jalap, rolled into sugar-coated pills and to be had at all drug stores as Dr. Pierce's Pleasant Pellets.

If the cold starts with a cough, and it persists then a well known local treatment for this condition should be taken. A well known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

What Good is the Robin?

"Now, what good is the robin? Everybody knows the robin. A boy came along the road with a .22 rifle, saw a robin sitting there and killed it. I went over and picked the robin up. Two cent-worms were squirming on the ground; the robin had had them in his beak. I held the bird up and two more fell out of his mouth. Remember, one cent-worm will eat down five tomato plants, in a night. The cent-worm does his work and then hides under the soil; Mr. Robin comes hopping along, picks them in his beak. If anyone tells you that a robin will destroy a hundred cent-worms in a day, take it from him that it is true." — Jack Miner at the National Conference on Game and Wild Life.

Prohibition

We heard a story the other day about a Licenced Inspector. We won't say where he was working, for that would be telling. An elderly man boarded a train, and was carried very carefully a market basket securely covered and tied down. The basket seemed to be heavy, and the inspector, who happened to be on the platform, had his suspicions, so he decided to get on the train. He noticed that the old man put the basket on the rack above the seat and sat down to read a newspaper. The inspector got on the next seat and watched the old man. After some time his vigilance was rewarded, for he saw some amber liquid drop from the basket onto the window ledge beside "Ah-ha," said to himself, "I believe that's beer" so he put forward his finger a little and staffed. "No, it's not beer, perhaps it's brandy." He tasted it again and decided it was not brandy. Then he thought it might be pickles, so he tasted it a third time, and was sure it was pickles. Being a fair-minded inspector and a little ashamed of his first suspicion, he touched the old man on the shoulder and said, "Say, mister, your nickles are leaking."

The old man turned around and said, "Did you think there was pickles in that basket?" "Taint pickles, it's pops."

The Blairmore Athletic Association has organized a baseball team and expects to be ready for the diamond series. It is the co-operation of the citizens of the town in promoting friendly games. We have not been making much progress this year, and now that the war is over all should pull together and get pre-war athletic sport in good shape. The association is open to any challenge.

Government Asked To Buy Doukhobor Land

Cowley, March 24.—"We do not wish the Doukhobor community to remain at Cowley. It is up to the Dominion government, to buy their land for settlement by returned settlers. The Doukhobors do not make desirable settlers and they do not become citizens."

A resolution to this effect was carried at the meeting of the council of the municipal district of Livingstons No. 70 at Cowley on Monday. It was explained during the discussion that the dislike of the Doukhobors for education in Canadian schools is one of the chief reasons why they do not make desirable citizens.—Lethbridge Herald.

The Lord and the Devil Look After Their Own

Being one of the patriarchs of the "fourth estate," it must be accorded to Editor E. E. Simpson, of the Kamloops Standard-Sentinel, more familiarly known as "Dad" Simpson, the right to comment as follows: "With the teachers at the coast striking, we may expect to see a lot of the lawyers, ministers, dentists, doctors and editors going out on tentative suspension of professional duties. The ministers and editors are really next in line as they have no legislative protection. But the Lord and the devil look after their own."

Two stout pigeons were in town on Monday and endeavored to get boys or girls under age to purchase tobacco from them from Chinese restaurants. Although they offered to pay the kids well, the bluff didn't work. This is a method the attorney general's department were asked to put a stop to.

Coal Company Staff

Bid G. A. LaVoie Farewell

On Saturday last a number of the officials of the West Canadian Collieries visited the house of Mr. G. A. LaVoie, who has been on the official staff for the past four years, for the purpose of bidding farewell to Mr. and Mrs. LaVoie, on the eve of their departure for the eastern States.

Mr. Green read the following address and presented Mr. and Mrs. LaVoie with a handsome club-bag each, on behalf of the staff.

Blairmore, Alberta,
March 22nd, 1919.

To Mr. and Mrs. LaVoie:

It is with regret that we learn of your intention to sever your connection with the West Canadian Collieries, and to depart from us with whom you have been so closely associated during the past four years. While we realize that partings such as this are not uncommon, the truth is brought home to us that long and pleasant associations are not to be lightly discontinued, and it is a pleasure to reflect that such a parting as this cannot sever friendships.

We feel that during the time you have been with us your genial nature and unfailing courtesy have done much to promote the harmony and welfare of the business in which we are all engaged.

In the social life of the community, Mrs. LaVoie and yourself have made many friends, to whom the news of your departure will bring feelings of sincere regret, and we feel that whatever your lot may be in the future, you will not be able to forget the many friends you have left in Blairmore.

We wish that in the fire fields to whose call you are responding, success and all the real joys of life will come to you both, and we hope that in the realization of these you will ever remember your friends.

Signed,

A "One Big Union" meeting will be held in the opera house on Sunday, at 8:30 p.m., to be addressed by the editor of the District Ledger.

The annual meeting of the Crown Nest Pass Automobile Association will be held at the Cosmopolitan hotel at 8 p.m., on Wednesday, April 9th, when officers for the year 1919 will be elected.

Quite a sensation was created the first of the week when C. W. Johnston, manager of the opera house, received the following message:

Calgary, Alberta,
March 22nd, 1919

C. W. Johnston,
Opera House, Blairmore,
Her Body in Bond will be shipped you Friday.

George Kohl, Shipper,
On investigation it was found that "Her Body in Bond" is the title of a picture, with Mae Murray, showing in Blairmore on Friday and Saturday.

On April 6th the local veterans will hold a public meeting in Blairmore, at which will be present Mr. Thomas Longworth, president of Leithbridge G. W. V. A., and several other comrades, including provincial president McKenzie, J. Mitchell, of the labor department, and Mr. Huine, the field secretary of the repatriation committee.

Further particulars will be announced at the regular meeting of the veterans on Sunday next.

The good old H.M.C.S. Nioche, sailing the Halifax Channel, having served her time and played her part in the great war, actively and passively, first on the high seas, where she ranked second to the world's greatest prize capturer, and then at the dock as a training school and receiving ship, after all this service she is now about to assume a new role, that of a coal barge. It is said that she has been sold to the Dominion Coal Company and will be refitted for the purpose of carrying coal.

A grand concert will be given in the Central Union church on Friday, April the 4th, under the auspices of the Union orchestra, commencing at 8 o'clock.

Notice to School Districts Desiring to Hold School Fairs Commencing in Spring 1919

The Department of Agriculture at Edmonton purposes giving assistance in the organization, management and financing of School Fairs through the School of Agriculture at Clarendon. This notice has reference to the territory in Southern Alberta extending from the main line of the C. P. R. south to the boundary.

Briefly, the plan is that a committee of interested citizens shall be organized at the center at which it is proposed to hold a fair, which committee will share with the Departments of Agriculture and Education the work and expense of the fair. A group of eight to twenty-five schools convenient to the center will be selected. Garden seeds will be distributed through the committee to the pupils of these schools. The pupils will plant the seeds at home, care for the gardens during the summer months, and at the fall, exhibit samples of the products at a fair. Girls will receive recipes and instructions in connection with the sewing and cooking that will exhibit at the fair. For further instructions apply immediately to

evening last.

Remember "Hearts of the World"
at the Rex Theatre on Thursday
next, April 7th. Reserved seats
are now being booked.

Fred Padgett, George Noble, Geo
Charlesworth and Sidney Cockayne
went to Calgary this week to re-
ceive their discharge.

A miner named William Pro-
wick died on Monday last. His
remains were laid to rest on Tues-
day afternoon in the Pasaburg
cemetery.

Mrs. Mackenzie and Ross were
the guests of the Masonic Lodge at
Hillcrest on Friday evening last,
where a farewell banquet was ten-
dered them.

Last week's whist drive and
dance in the Oddfellows' hall was
well attended. Miss Mary Will-
iams won first ladies' prize and
Mr. R. T. Johnson took the gent's
first prize. Booby prizes were
awarded to Mrs. McLaerty and
Mr. Harold Blinston.

The committee in charge of the
benefit picture show wish to an-
nounce that the total receipts am-
ounted to \$126.00. Expenditures

were \$60.00 war tax and the sum
of \$120 was handed over to the
Conners family. Mr. and Mrs.
James Conners wish to thank pat-
rons and the Rex Theatre propri-
etor, Mr. W. J. Cole, through whom
kindness the show was given free
of any charge.

Two slender persons may be
great friends, though but slight ac-
quaintances.

A Triumph Of Edison's Genius

Those who hear the New Edison
Diamond Amberola are amazed at the
fidelity of its reproductions. They can
hardly believe that any instrument
could be so nearly "human".

If you will permit us to occupy a
corner of your living room with

The NEW EDISON DIAMOND AMBEROLA

we will repay you many times over by giving you the
most delightful musical treat you have ever experienced
in your home. Without obligating yourself in any
way whatever, we will send to your home some of the
greatest singers, instrumentalists and musical organiza-
tions of various kinds.

We do this by sending you an Amberola and a
dozen AMBEROL RECORDS. It won't be more
than five minutes before you will decide that you
will never part with the Amberola; but you can have
a week in which to try it out and decide whether
you will want us to bring the outfit back to our store,
or whether you want to keep it
by paying cash or arranging
convenient terms.

Take advantage of this free
trial offer today—come in and
select the style of Amberola you
prefer and your favorite records.
It won't cost you a cent unless
you buy.

Most of the members of the 192nd
Battalion band (original) have re-
turned from overseas to their re-
spective homes in The Past, and
we understand purpose organizing
a district band in the very near
future. Two members of the origi-
nal number were killed in action
and we were in error in our last is-
sue in stating that a poolroom
equipment was soon to be moved
to a point thirty-five miles south
of Red Deer. For the benefit of
the individual whose cash is in-
volved in the investment we might
say that it should read 34 miles
instead of 35.

Lloyd George Faces Critical Situation

Paris. — La Homme Libre, discussing the appeal of President Wilson, Premier Clemenceau and Premier Orlando to Premier Lloyd George that he remain in Paris until his questions connected with peace should be settled, emphasizes that the critical situation in Great Britain arising from labor troubles which the British premier is facing, is sufficient to explain his impatience to return to London. The newspaper adds that Lloyd George is confronted to a greater extent than any other government head with the duty of establishing peace and serving the interests of the working classes.

"On the morrow of the great European conflict and the eve of a new era, which imperatively demand close national unity," L'Homme Libre says, "Great Britain is in the throes of internal dissensions. Mr. Lloyd George is as anxious to conclude peace rapidly as he is to preserve concord among the people of Great Britain. Both of these aims are inseparably linked."

Would Like Blockade Raised

Is of No Value to British Government

London. — In the house of commons Sir Frederick Banbury, privy councillor, warned the government that a continuance of the present financial methods meant, eventually, national bankruptcy. Other speakers complained that control of exports permitted the United States to step in and capture British trade abroad.

J. Austen Chamberlain, chancellor of the exchequer, replying to criticisms, said that the government was trying to abolish control as quickly as was safe. The export of cotton goods was free to every part of the world, except the blockade countries, he declared, and in this case restrictions were maintained for reasons of internal policy. The house, he believed, could hardly assume responsibility for action in opposition to Great Britain's allies.

Mr. Chamberlain said he was advised that it was not a fact that Americans were sending goods where British goods were not admitted. What the United States had done was to book orders and give long credits for goods to be delivered when the blockade was raised. It was open to British manufacturers to do the same.

The sooner the blockade could be raised, he said, the better the government would be pleased, and it would gratify the government if Germany could draw some of her supply through neutral countries.

Visitors to Germany Require Permit

Berlin. — Because of the great number of military and civil entente missions which have visited Germany since November, the German cabinet has decided, according to the Kreuz Zeitung, that no persons from an allied country will henceforth be permitted to travel in Germany without special permission from the armistice commission.

More Rum for Britain

Kingsland, Jamaica. — The legislative council is considering an excise tax bill which would impose a tax on rum imports and shipping companies doing business with Jamaica. As a result of the withdrawal of embargo restrictions, arrangements are being made to ship \$2,000,000 worth of rum to the United Kingdom,

Ships Sail for Food

London. — Eight German steamers, including the Kaiser in Auguste Victoria, Countess of Hesse, Graf Waldeser and Pretoria, sailed from Hamburg for food-stuffs, according to advices from Berlin. It is said that the crews of the ships made a formal demand that they should not be removed from the vessels during the trip.

Prefer to Become Outlaws

Hun President Says Unjust Peace Cannot Be Signed

Berlin. — "Germany is prepared to sign peace but is not prepared to commit harakiri." The Falstaff figure of Fritz Ebert, president of the new German republic, straightened in the chair and with a sonorous voice he continued: "If the peace terms mean suicide they will not be signed. Rather than political and economical death, Germany will choose political economic madness. Let us offer us instead of a peace based on Mr. Wilson's fourteen points only a knife with which to commit harakiri. Germany goes Bolshevik, Germany joins the Russian soviet republic and Germany becomes an outlaw-nation."

Appeals Against Sentence

Paris. — An appeal has been entered against the death sentence passed on Emile Cottin, the assailant of Premier Clemenceau.

Polish Situation Pitiful

Lemberg Defended by Women, Children and Boy Scouts

Chicago. — In a letter received by John F. Simliski, president of the National Police department, Madame Paderewski, wife of the pianist and premier of Poland, described conditions in Poland as "pitiful" and said the Polish army was "hungry" and without clothes in zero weather, and lacked arms. The letter was dated January 28.

The city of Lemberg was without light, water, food, arms or ammunition, but was constantly bombarded, Mme. Paderewski wrote. "It is defended by women, children and boy scouts," she added, and declared, "our enemies commit the most horrible atrocities."

"Some of the women taken prisoners were impaled on pickets," she wrote. "So were also persons who were captured and left to die slowly. Boys were taken and tied together, three or four at a time, with barbed wire and then buried alive."

Continuing the president's wife asserted the Bolsheviks were burning, beheading or freezing Poles to death along the border; in Cieszyn the Czechs were killing and hanging, and the German army is advancing on Posen. We are in a trap. I must hear we are in a trap. I must hear it will burst with pain," the letter concluded.

Invite British Fleet

Washington. — Navy department officials state that Secretary Daniels during his trip abroad probably will invite the British fleet to New York for a visit during the coming summer.

Such an invitation was extended informally by Assistant Secretary Roosevelt when he was in England just before the signing of the armistice.

German Parties Disagree

Independents Make Demand for Re-establishment of Government Rule

Berlin. — The majority of independent socialist parties are irreconcilably split, is the common expression in political circles resulting from a speech by Wolfgang Heine, in the Prussian diet, made in reply to the demand of the independents for a repeal of martial law in Berlin.

Following closely upon Minister of Defence Noske's castigation of the independents at Weimar, Herr Heine who is Prussian minister of justice, and one of the majority leaders, presented a scathing indictment of the faction of Hugo Haase, the independent leader, in which he reviewed the intimate co-operation existing between the independent and the Spartacists from the first day of the revolution.

Herr Heine told the independents that they were more concerned about Russia than about the welfare of Germany and said that it was not the Russian steam roller that brought about Germany's defeat, but Bolshevik infection and corruption paid with stolen Russian funds.

Herr Heine also held the independent responsible for the Spartan activities of the fugitive police head, Eichhorn, and for the lawlessness of George Leibnitz's marines, and charged that they precipitated the recent general strike without the slightest justification.

U.S. Senator Asked to Resign

Jefferson City, Mo. — James A. Reed, United States senator from Missouri was called upon to resign his seat in the senate in resolutions adopted here by a conference of fifty of the sixty-seven democratic members of the house.

The action was taken, conference leaders announced, as a result of Senator Reed's address to the legislature in which he attacked the proposed league of nations.

Japanese Would Assert Their Rights

Offered Baltic Crown

Washington. — Arrival of a British squadron at Libau with a British commission having military and political power to open relations with the Lettish government was announced in official despatches quoting the Lettish press bureau. Prince Adolf Fredrik of Mecklenburg is reported to have been offered the Baltic royal crown.

Defends Ex-Kaiser

Von Hindenburg Makes Excuses for Flight Into Holland

Berlin. — Aroused by recent criticism of former Emperor William regarding his flight from Germany to Holland last fall, Field Marshal von Hindenburg has prepared and published here a defense of the ex-ruler's action.

After depicting the situation as it existed in November, caused by the weakening of the forces in the field, and the breaking out of the revolution at home, the field marshal writes: "The peaceful return home of the emperor has become impossible. It could only have been carried out through the forcible employment of loyal troops and civil war, would have been added to the hostilities with the enemy."

"The emperor could have taken himself to the fighting rollers in order to meet death at their head in a last attack on the enemy, but the armistice so keenly desired by the people would thereby have been postponed and the lives of many soldiers needlessly sacrificed. The emperor finally, in agreement with his advisors, and after a severe mental struggle, decided to leave the country, solely in the hope that he could thereby best serve the fatherland, save Germany from further losses, distress and misery, and restore peace and order to Germany."

Famous Battalion Disbanded

Men of Princess Patricia's Have Received Discharge

Ottawa. — The famous Princess Patricia's Canadian Light Infantry, Canadian expeditionary force, is no more. Demobilization has been completed, the last man being discharged and the unit disbanded. It is considered the demobilization constitutes a record for speed.

There was a touching scene as Lieut. Col. A. Hamilton Gault, organizer of the unit, bade the men farewell.

Many of the men have left for their homes, those living at a distance being provided with first class sleeper accommodation and tickets, in addition to generous allowance for meals en route. Toronto and western men were among those who have left.

Depopulated Reims

Paris. — The population of Reims, which was 117,178 before the war, is now 8,453, according to a census just completed by the government. Of this number 3,987 are men, 3,253 women and 1,813 children. Five-hundred children attend school in the ruined city.

Allenby in Paris

Paris. — Gen. F. H. Allenby, commander of the British forces in Palestine, has arrived here from Egypt to advise the supreme council on near eastern questions.

World Plans to Prevent Future Wars

New York. — Because "there is some hope of making war impossible through a league of nations, but no hope of doing it in any other way," Major-General Sir Frederick Maurice, former director of military operations of the British general staff, declared that he favored the project. The general, who held his military portfolio from 1915 to the early part of 1918, added his opinion that a "great majority" of the British people were enthusiastic for the league plan.

Arriving in this country for a stay of several months, General Maurice told interviewers "that for the first time in history, the British people had been at war and they don't like it."

Previous conflicts involving the empire, he said, had been fought "with the fleet, gold and a proportionately small army," but this time the whole nation had been engaged. For every American mother who had lost a boy, he added, 15 British and 20 French mothers were in mourning for the men.

The general reported England "almost unanimously opposed" conscription, but said it would be necessary for a few months to replace the regular army disorganized by the war.

Admitting that "you can't stop any nation from arming and fighting," he hoped that reduction of the German army to 100,000 would "get Germany and other nations out of the habit of spending money on armament."

Force Along Rhine Must Be Retained

Soldiers at Rhyl Camp Not Blamed For Revolt

Halifax. — Lieut.-Col. Pratt, O.C.

the 133rd battalion and member of

the Ontario legislature for Norfolk

and the Canadian contingent on

the Cetlic, in an interview published

in the Daily Echo, attributes the un-

rest of Canadian soldiers in Rhyl

camp to the incompetency and un-

preparedness of the department of

militia, which, judging by results

at the time the armistice was signed

he said, was absolutely without any plan

for the repatriation of Canadian sol-

diers.

"Argyll House is full of incompe-

tents and dubs," said Lieut.-Col.

Pratt. "There are many officers there

who have wrangled their way through

the war praying to God that the war

would last another year so that they

would be able to hang on to their jobs.

"I have spoken to 102 officers on

the Cetlic and every one of

GET AFTER THOSE DOLLARS

Our town should get all of the trade in our trade area. We can't worry about our neighboring town's business. We have enough to do to take care of our own. But we should get all of our own. How about these dollars that are getting away from us? How about the dollars that are slipping through our fingers? We have the goods. We have the values. Our prices are right. And yet there is a lot of money slipping away from us constantly. The best way to get after this money is to tell the truth about the man or the system that is taking it away. Join the Trade-at-Home campaign.

Officials Incompetent

Soldiers at Rhyl Camp Not Blamed For Revolt

Halifax. — Lieut.-Col. Pratt, O.C.

the 133rd battalion and member of

the Ontario legislature for Norfolk

and the Canadian contingent on

the Cetlic, in an interview published

in the Daily Echo, attributes the un-

rest of Canadian soldiers in Rhyl

camp to the incompetency and un-

preparedness of the department of

militia, which, judging by results

at the time the armistice was signed

he said, was absolutely without any plan

for the repatriation of Canadian sol-

diers.

"Argyll House is full of incompe-

tents and dubs," said Lieut.-Col.

Pratt. "There are many officers there

who have wrangled their way through

the war praying to God that the war

would last another year so that they

would be able to hang on to their jobs.

"I have spoken to 102 officers on

the Cetlic and every one of

them has told me that they do not

blame the soldiers at Rhyl camp for

the action they had taken."

Must Suspend Hostilities

Paris. — Marshal Foch and other

generals were called in during a pro-

longed session of the supreme coun-

cil to give their advice as to action

which should be taken in Galicia,

where Ukrainian forces are besieging

Lemberg, which is threatened from

three sides. It was decided that a

sharp warning should be sent to both

sides asking for a suspension of hos-

tilities. The warning will take the

form of an injunction to the two

armies.

Restrict Liquor in West Africa

London. — The government has

prohibited the importation of all

spirits into the British West African

colonies except under license, which

will not be granted for the importa-

tion of so-called "trade spirits."

It was announced. This decision was

taken as a preliminary measure, pend-

ing on the decision on the question of the

permanent prohibition of the spirit

trade in West Africa.

EDITORIAL

Memorials to Our Soldiers

A subject which is engaging the attention of the people of Canada, whether they be resident in a metropolitan city or in the smallest hamlet, is the manner in which they can best and most appropriately commemorate the memory of their fellow Canadian citizens who, in the service of their country and Empire, gave their lives in the Great War.

There is no difference of opinion that some fitting memorial should be erected in each centre of population in this Dominion, large or small.

There is also unanimity of opinion that in every community a memorial should be just as fine as those in the capabilities of the people to provide.

The only question is, what form these memorials should take.

Rewriting the magnificent memorials, shafts, statues, arches, fountains, museums, and other structures to be found on every hand throughout the countries of the Old World, one realizes that in this new country of Western Canada there is a sad lack of these artistic and inspiring structures. Of course our history has been brief, and but as a passing moment in the life of a nation. We have, of necessity, been obliged to confine attention very largely to the provision of the more practical and utilitarian needs of our pioneer condition. But the time has now arrived when it becomes our duty to commemorate in some permanent manner the glorious memory of our soldiers, and to do so in such a way as to provide a source of inspiration for all future generations of Canadians.

In some sections of the Dominion there appears to be a tendency to exploit this universal desire to pay respect to our soldiers by erecting some building or institution which is a need of the community in any event. This is not the right spirit, and it should be discouraged. No attempt should be made to capitalize public sympathy with the idea of a memorial in order to provide some service which sooner or later would have to be provided in the public interest. Whatever form the memorial may take, it should be provided because it is a memorial, and not because of any other motive.

Each community will, of course, decide for itself the form and character of the memorial to its own fallen heroes. In some places it has been suggested that this should take the form of an endowment fund for the better education of the children of the poorer people, and thus give them equal opportunity with the children of the more well-to-do. The suggestion of a fund for hospitals and other philanthropic institutions is urged in other places. In some of the smaller communities the erection of a simple tablet or monument is advocated, while in larger centres a lofty shaft or stately monumemt or magnificient arch is felt to be most suitable.

The character of the memorial, important as it may be, is, after all, not the most important consideration. What is important is the spirit animating the people in providing the memorial, and the lasting effect it will have on the life of the com-

munity. It would, for example, serve but a poor purpose to erect a monument which, poorly designed and crudely executed, would be a constant cause of irritation to the beholder, or, having erected a suitable and artistic monument, to leave it in a state of neglect, throughout the years uncarred for amid unkempt grounds and surroundings.

It is not the object of this article to suggest any particular form or forms of memorials to our Canadian soldiers, but rather to lay emphasis upon the desirability of the most thoughtful consideration being given by the men and women in every community to the provision of a memorial or the character best calculated to impress, influence and inspire the children of present and future generations; to inculcate in them a fervent love of country; to develop in them every quality that make sacrifice and render service to the country and fellowmen, and to carry before them the glorious example of the men of 1914, who counted no sacrifice too great that liberty might be maintained and civilization live and flourish throughout the world.

Our soldiers have left a priceless heritage to the nation which should be accorded a lasting commemoration and ever remain a beacon light throughout the ages to come.

DO YOU WANT
PINK CHEEKS?

They Can Be Had By Keeping the Blood Rich, Vital and Pure.

Every woman—every girl—wants pink cheeks. They mean not only beauty but good health. When a woman's blood is scanty or anaemic, her color fades, she looks debilitated, is apt to feel tired and her complexion after slight exertion. Sometimes this trouble is accompanied by severe headaches, or pains in the back or sides. In fact, the trouble is due to weak, wavy blood and can easily be cured by making the blood rich, red and pure. For this purpose there is nothing equal to Dr. Williams' Pink Pills. They are 50¢ a box at all dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

Latest French Idea

Paris.—In France dueling has never become extinct and even the war seems not to have eradicated this traditional method of settling arguments between gentlemen. But the war has changed the weapons. Instead of pistols it is machine guns mounted on airplanes, which according to the present indications, will hereafter be called upon to settle affairs of honor.

Shock Left Her
Weak and Nervous
COULD NOT SLEEP

When the system receives a shock of this kind, the heart becomes weak, the nerves unstrung, the appetite poor, faint and weak feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. A. Bunyan, Pilot Butte, Saskatchewan, writes: "I have had Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so weak, faint and nervous I could not sleep at night, and my appetite was very poor. I could not walk across the floor without trembling all over. I had hot flushes and fainting spells."

When I was on the second box of your Heart and Nerve Pills, I began to feel that they were doing me good, and kept on until I had used six boxes when I felt like a different person.

I am never without them in the house, and always recommend them to all who suffer from their heart trouble.

Milburn's Heart and Nerve Pills are 50¢ a box at all dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

Flight Across Rockies

To Determine Practicability of an Aerial Mail Service

Vancouver, B.C.—The Vancouver World announces that, in co-operation with the Aerial League of Canada, it is promoting an aerial flight across the Rocky Mountains. The plans include a flight from Vancouver to Calgary by way of the Crow's Nest Pass; then to Edmonton and homeward by way of the Yellowhead Pass and Kamloops, with a preliminary flight to Victoria and return. It is stated that only Canadian and British airmen are eligible to compete using machines of Canadian or British make.

The flight is to be under control of a committee of the Aerial League and the World, and trophies and a purse will be awarded. The flight is to demonstrate "the practicability and reliability of an aerial mail service," but the element of competition may be introduced if more than one machine is available. The flight is to be placed as soon as machines can be procured from England.

A Jolt for the Ex-kaiser Amerongen.—Considerable excitement was created at Amerongen castle, where former Emperor William is staying, when six airplanes appeared suddenly from behind a bank of clouds. They came from the east and after circling the castle twice, disappeared in a northerly direction. The nationality of the machines could not be distinguished owing to the overcast weather, but it is generally assumed that they were Dutch.

Pink Pills, so that they deserve all the credit for my restoration to health." You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail in 5-cent, 10-cent or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

How Restore Art Treasure

Pictures Stolen From Lille Have Been Returned

Paris.—Art treasures taken from occupied France by the Germans and removed to Brussels are gradually being restored to the original owners. The Temps reports that three carloads of pictures stolen from the museum at Lille have just been returned and two carloads taken from the region of Lille have been sent back.

Among the ten carloads unloaded at Valenciennes, were rare and precious manuscripts and archives of the French government, the belly taken from the Guild Hall at Cambrai, and furniture belonging to the Prince of Monaco, the Marquis of Havincourt and other persons.

Minard's Liniment for sale everywhere.

Aluminum in Norway.

Christiania, Norway.—A Norwegian factory has succeeded in obtaining aluminum from what is locally known as Labrador stone, which is found in large quantities in the western part of the country. Hitherto this stone has been looked upon as having no commercial value whatever.

The only time the average man is willing to admit that he is one of the common people is when he is running for an office.

Alberta Contributed Millions

Edmonton.—The people of Alberta during the war contributed the total of \$42,000,000 toward direct financial aid in the war effort of the Dominion, according to an announcement made in the legislature by Hon. C. R. Mitchell, provincial treasurer, in concluding his presentation of the annual budget.

The bonds purchased in the year of 1918 reached \$19,000,000 and the total contributions to the Red Cross and other patriotic causes amounted to \$5,000,000.

Wooden Steamer Launched Vancouver, B.C.—The French freighter Chateaubriand was successfully launched at the Northern Construction yards. The ship is a wooden vessel of 1,500 tons, and is the first of five being built by this company for the French government.

It Freed Me
of Headaches

This Is What Many Thousands of People Write About Dr. Chase's Nerve Food—Not Merely Relief, But Lasting Cure

Chauvin, Alta., April 1.—When the human system gets run down, the blood and the nerves exhausted, one of the most constant and distressing complaints is headache. There is always temptation to use drugs to ease the pain, but such relief is only temporary, and is obtained at enormous expense to the nervous system and the muscles return with increased violence.

Real cure is only obtained when the vigor of the nervous system is restored by such treatment as Dr. Chase's Nerve Food.

Mr. Ross Page, of Chauvin, Alta., writes:

"I have used Dr. Chase's Nerve Food with splendid results. Some time ago I seemed to lose my appetite, and suffered from frequent headaches. A treatment for the Nerve Food soon put me on my feet again, and I am now in full possession of my strength again. My friends were all surprised at my rapid recovery. I took no medicine but Dr. Williams' Pink Pills, which are a favorite medicine in England as well as in Canada. On my return home I found that I had fainted on getting out of bed for a few days. I really felt as weak as a duck. I did not realize that I had felt continually fatigued and worn out. I had no ambition for anything, and grew white that my brothers used to call me 'snowball.' I took the Pink Pills, and they did me good. I am now strong again, and I feel that I was able to get up, walk about, and go about as I used to. The color has returned to my cheeks and I am lively again. My friends were all surprised at my rapid recovery. I took no medicine but Dr. Williams' Pink Pills, so that they deserve all the credit for my restoration to health."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail in 5-cent, 10-cent or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

How Restore Art Treasure

CITY COUNCIL DOING ITS DUTY

To put through the license reduction will require some tall hustling. Mean-while the council is doing its duty.

The cure is "Putnam's" the celebrated cork extractor that has been curing corns and warts for years. "Putnam's" never fails, 25¢ at all dealers.

Canadian Steer Championships

Many Prizes Have Been Won By Shorthorns

Shorthorns did well at the Ontario provincial winter fair and at West Toronto. At Guelph, the grand champion and reserve grand champion steers were both Shorthorns, while at West Toronto, the single steer grand championship and the grand championship for three steers my weight were both won by Shorthorns. A Shorthorn calf also won out in the boy's steer feeding competition.

At the three grand championships at these two fairs, and all friends of the breed will extend congratulations.—G. E. Day, Secy. Dominion Shorthorn Breeders' Assn.

No Bread in the Caucasus

New York.—Thousands of men,

women and children are starving to death in the Caucasus, according to the first report from Dr. James L. Barton, chairman of the commission recently sent to that region by the United States.

"There is no bread anywhere," says the report, "the government has not a pound. There are 45,000 people in Erivan wholly without bread, and the orphans and troops all around Erivan are in a terrible condition."

Minard's Liniment Cures Dandruff.

"Nothing is certain," as the fisherman said when he found it on his hook.

Says Empire Will

Be Resurrected

Ruling Classes of Germany Hopeful of Reviving Power

Paris.—The German empire will be resurrected more rapidly than most people think. Dr. Richard von Kuehlmann, former German foreign minister, declares in a letter quoted by Echo de Paris.

According to the letter, von Kuehlmann says that the former ruling classes of Germany are still hopeful of retaining power.

The letter says that events are moving as the writer anticipated earlier in the year, when he wrote that Marshal Foch had sheathed the sword and it would not be necessary for Germany to fear France longer. Under favorable conditions, von Kuehlmann is quoted as saying, the Germans will be in Paris before 1925.

No Asthma Remedy Like It. Dr. F. D. Kellogg's Asthma Remedy differs distinctly from other so-called remedies. Were this not so it would not be known as great and reliable as it is. Kellogg's, the foremost and best of all asthma remedies, stands upon a reputation founded in the hearts of thousands who have known its benefits.

Britain's Powerful Warship

H.M.S. Hood Will Be Mine and Torpedo Proof

London.—Details of the biggest and most powerful warship which is being built on the Clyde for the British Navy can now be told. The ship is His Majesty's Ship Hood, whose design, speed, the representative of the London Daily News learns on official authority, will be thirty-two knots, and which may be increased during her trials to 35 knots.

Details of the vessel hitherto have been secret. She is a battle cruiser, and her length will be 900 or only one foot less than the Aquitania, the largest of the British liners. The Hood is expected to be mine and torpedo proof.

"I had a pain in my left side for four years," Mrs. Brant is giving that reason. "It never left me for one single moment."

"But when I began using two boxes of Dodd's Kidney Pills, with two of Diamond Dinner Pills, the pain ceased, and in over a year it has never come back."

"I have recommended Dodd's Kidney Pills to the patrons of this P.O. for I keep the post office here, as the best medicine I have ever used."

Dodd's Kidney Pills, with two of Diamond Dinner Pills, are pure all.

They are purely and simply a kidney remedy. They are credited with cures of sore back, rheumatism, lumbago, sciatic disease, diabetes, and all disease.

The reason for this is that all these troubles sprang from diseased kidneys.

Dodd's Kidney Pills, acting directly on the kidneys, put those organs in condition to do their full work of clearing the impurities out of the blood and the diseases vanished with the impurities.

Dancing Prohibited

London.—According to a German wireless dispatch received here, there has been no important changes in the situation at Berlin. A dispatch to the Exchange Telegraph from Copenhagen says that demand of the Majority Socialists, a prohibition against dancing has been issued in Berlin.

The dispatch adds that during the week when women and children were being murdered, dancing in fancy dress was going on in the streets.

WHEN YOU SUFFER FROM RHEUMATISM

Almost any man will tell you that Sloan's Liniment means relief

For practically every man has used it and suffered from rheumatic aches, soreness of muscles, stiffness of joints, the results of weather exposure.

Women, too, by the hundreds of thousands, use it for relieving neuritis, lame backs, neuralgia, sick headache. Clean, refreshing, soothing, economical, quickly effective. Say "Sloan's Liniment" to your druggist. Made in Canada. Get it today.

Sloan's Liniment Kills Pain

Irish Appeal to King George

London.—An appeal has been submitted to King George by a number of Irish officers who served in the British army during the war, praying that Irish home rule be submitted to the peace conference.

She Tells Them

In the Post Office

That Dodd's Kidney Pills Cured Her

Quebec.—Postmistress Suffered Four Years Before Her Pain Vanished Before a Short Treatment of Dodd's Kidney Pills.

L'Ange is brilliant, Gaspe Co., Quebec. March 24th, (Special). Miss Geo. Bland, the Postmistress here, is a sworn friend of Dodd's Kidney Pills. And like a host of others she has a remarkable story.

"I had a pain in my left side for four years," Mrs. Brant is giving that reason. "It never left me for one single moment."

"But when I began using two boxes of Dodd's Kidney Pills, with two of Diamond Dinner Pills, the pain ceased, and in over a year it has never come back."

Auto-Stop Safety Razor

He'll like the self-stropping razor that gives him a fresh, keen edge each day; he'll welcome the simplicity that enables him to clean his Auto-Stop Razor without taking it apart; most of all he'll be glad of the military-like efficiency with which the Auto-Stop Razor goes "over the top" and removes the toughest "barbed-wire" beard without the slightest "pull" or irritation.

The Auto-Stop Razor is a gift he'll be thankful for every day of his life—a lasting memento of your thoughtfulness.

Razor—Stop—12 blades—\$3

Cuticura

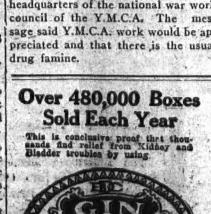

Heals Skin Troubles With One Cake Soap and Two Boxes Ointment.

Terville fishing on back of neck. After three weeks got flaky and became sore. Was red and scratchy and bleeding night and day. Called Cuticura. Ichthyosis. Ichthyosis not so bad when using them. Now healed. Signed statement of Mrs. Wilma Quigley, Whitefish, N.D.

If you have no soap, soap soaps and heat them rubs, healing and learning, bringing speedy comfort to tortured, disfigured, moist, weeping skin. It will be equal to the highest praise. But it does more. By using the soap exclusively for toilet purposes, allowing no soap to come in contact with the skin, it prevents these distressing experiences.

For Free Sample Each by Mail address postcard: "Cuticura, Dept. U.S.A." Send everywhere.

W. N. U. 1256

This is conclusively proved that these bands and relief from Kidney and Bladder trouble.

No Bread in the Caucasus

New York.—Thousands of men,

women and children are starving to death in the Caucasus, according to the first report from Dr. James L. Barton, chairman of the commission recently sent to that region by the United States.

"There is no bread anywhere," says the report, "the government has not a pound. There are 45,000 people in Erivan wholly without bread, and the orphans and troops all around Erivan are in a terrible condition."

Minard's Liniment Cures Dandruff.

"Nothing is certain," as the fisherman said when he found it on his hook.

FOR SALE—Fifteen Holstein Dairy Cows, fresh. Apply to James Bennett, Cowley, Alta.

T. Lebel Company, Ltd., of Pincher Creek, general merchants, will be wound up on April 1st.

Constable Peebles resigned as Alberta provincial police officer at Bellevue and has moved to Lethbridge.

The Bolsheviks are opposed to the marriage of girls between the ages of 17 and 32, they must marry before or after a year.

Among this week's arrivals from overseas were Sapper Samuel and Robert Patterson and Capt. John Angus McDonald, all looking well.

A good audience greeted the Schubert Sextette at the opera house on Monday night, and all speak highly of the programme rendered.

A number of local Oddfellows journeyed to Coleman on Monday night to visit Coleman Lodge, where the first degree was conferred on two candidates.

In some parts of England, Italy and France it is believed that a girl who buries a drop of her blood under a rose bush will have rosy cheeks. Too few rose bushes around Blairmore, eh?

The death of no other Canadian statesman ever called forth such grateful tributes as have been paid by the leading newspapers of Great Britain, the United States and Canada to Sir Wilfrid Laurier.

One of the latest inventions is a sawdust stove, which will burn for 24 hours on 30 pounds of this fuel. It requires little attention. Sawdust can be bought for 48c per 100 pounds, making the expense of keeping a room warm all day less than a cent an hour.

Soldiers are required to salute officers on virtually all occasions, but there is one time when a British private is forbidden to salute the commander-in-chief of the army. This is when he is guarding any of the King's residences, and the only man he may then salute is the King himself.

A distressing accident which terminated fatally for Elmer W. Smith, a man of 45 years, occurred last week in the laundry of the Macdonald hotel at Edmonton. Smith's hair got caught in a moving roller, carrying him around several times and injuring him so that death was almost instantaneous.

For the loss of two teeth, Anna I. Shine was awarded \$1,000 damages by a jury in Boston, in a suit against Page & Shaw Inc., confectioners. She is 28 years old. She alleged she broke two teeth by biting a nail in a piece of candy she bought of the defendants and had to have the teeth extracted. The incident happened Oct. 5, 1917.

It is announced that the French naval authorities have recently erected what is claimed to be the most powerful wireless station in the world, and which is capable of sending messages as far as Australia. If this prove to be true, the station has a range of at least 15,000 miles.

The Blairmore Pharmacy are this week moving into their new premises in the old Blairmore hotel, which has been specially fitted up for their accommodation. A very attractive store is located on the corner, at the rear of which are ware rooms and offices. A side entrance leads to the offices of Dr. J. Olivier.

Airship rides never will become popular with girls unless the machine can be managed with one hand.

Pte. James Turnbull, of the fam 49th, arrived home to Blair more on Wednesday morning from overseas.

The minister of militia stated that the Dominion spent \$3,661,147 in the enforcement of the military service act.

WANTED—Old false teeth, don't matter if broken, I pay \$2 to \$15 per set. Send by parcel post and receive check by return mail. F. Tern, 403 N. Wolfe St., Baltimore, Md.

A grand dance will be given in the Union Hall at Hillcrest on the night of Monday, April 7th, under the auspices of the Great War Veterans' Association. Roy's orchestra will furnish music.

Mrs. McPhail has placed a memorial window in Knox church, Calgary, in memory of her husband Rev. D. G. McPhail, formerly of Pincher Creek, who was drowned on the Llandover Castle.

We received a wire from Victoria on Monday, asking if anything was being done in the matter of irrigation in this part of Alberta. We handed the matter over to Pick, who promised to co-operate with other irrigationists.

The eleventh annual ball of the Coleman Rebels and Oddfellows was held in the Coleman opera house on March 7th, 1919, and upheld the traditions of this annual event in being the ball of the season. Visitors from both east and west honored the occasion with their presence and returned home expressing the intention of repeating the visit next year. Floor management by Mr. C. D. Rogers, supper provided by the Rebels and music by Stokes' four-piece orchestra were all unsurpassable.

The first lot of flour imported into Germany since the armistice was placed on sale last week. The price for a German pound was 95 pfennings, or approximately \$40 a barrel at the normal rate of exchange. The flour will be distributed in pound lots for use in gravies or other culinary purposes, but not for making bread.

Tom Tweedie, M.P. for Calgary West, declares that if certain legislation is blocked he will use the "axe" on the senate. Looking up the dictionary, we find that the axe is the implement of the artisan and is intended to chop wood. May be there's lots of wood in the material on which Tom intends to use the axe.

Lucien Boudreau, M.L.A. for St. Albert, issued a writ in the supreme court for \$10,000 damages against Fred Forster, formerly licensee inspector, at present in California. Boudreau claims damages because Forster alleged in a letter to J. R. Boyle, attorney general, that Boudreau had got \$400 worth of liquor from the Edmonton vendor's office without the necessary permit and had taken this liquor away without paying for it.

R. T. Lowery, editor and proprietor of the Greenwood Ledger, B.C., writes pointedly from his winter home in Southern California, and says: "Los Angeles is a city built on boom talk and newspaper boasting. It is the cheapest and dullest city in California. Its streets are filled with returned soldiers and others looking for work. Many of them have no money, and there are five men for every job. Take it all the year round, British Columbia has a finer climate than California. That province needs to do more advertising. Thousands of people here have never heard of any town in B.C."

James Serra is down from Banff this week and return north on Friday.

Walter Howe, junior, is visiting friends at Lethbridge for a few days.

HEARTS OF THE WORLD is coming to the Blairmore opera house for a run of two or three nights, starting Tuesday, April 15. See bills.

House Plants and Cut Flowers

of all descriptions, phone or write M. Joxes, Blairmore.

NAZIMOVA, the great Russian emotional actress will be seen in her first production at the Blairmore open house, Wednesday and Thursday, April 9th and 10th.

FOR SALE—One Small Lathe, self-action and slide rest, tools for turning and screw cutting, in good shape, suitable for light work. Also half horse power gasoline engine. Apply to R. Simmsall & Sons, Blairmore.

A news item in one of our American exchanges runs this way: "James Rose, while walking leisurely on Sunday afternoon, was hit in the cemetery by an automobile." Now, what part of a man's anatomy is the cemetery?

Word comes from Montreal that despite the reported decision of the government not to re-introduce daylight saving this year, all Canadian railways will operate under the scheme. They were ordered to do so by the Canadian railway board this morning. The Winnipeg board of trade has forwarded to Ottawa a resolution urging that parliament re-enact daylight saving legislation for the present year.

About thirty gentlemen friends of Mr. G. A. LaVoie waited upon him at the Cosmopolitan hotel on Tuesday night and presented him with a purse of gold as a mark of respect from the citizens of Blairmore. Mr. LaVoie left last night for Pincher Creek, where he joins Mr. LaVoie for Massachusetts, in which State they will make their home. Mr. LaVoie having secured a position as construction engineer on the Boston and Maine railroad.

The case against Mark Sartoris, charged with a breach of the liquor act, came up for hearing on Tuesday before F. M. Pinkney, J.P., and quite an array of legal lights. Sartoris was charged with having in his possession for sale on March 2nd, beer containing more than 24 per cent of proof spirits. His store was raided by the police on the morning of Sunday, March 2nd, at about three o'clock. A barrel containing ten bottles of unlabelled beer caught the eye of the police officer, who confiscated two of the ten, and after sealing them up in the presence of Sartoris, sent them to Mr. Kelso, the Alberta government analyst, at Stratford, for analysis. The goods were returned from Edmonton in due course with report from the analyst that they were found to contain 5.59 per cent of proof spirits. Sartoris was summoned to appear before the J.P. and on the application of Mr. Gillis, his solicitor, the remand was granted until March 21st, and then to March 25th, so as to permit of Mr. Kelso and other witnesses being secured. W. M. Campbell represented the attorney general's department, while J. McLeod Sinclair, of Calgary, and J. E. Gillis, of Blairmore, defended the accused. After hearing evidence from both sides of the case a verdict of guilty was pronounced by the judge and a fine of \$125 and costs was imposed. The case against E. Pomeroy, which was to have been heard on Tuesday, was adjourned to Monday next at 2 p.m.

Cowley citizens gathered together on Monday night, and extended a farewell banquet to Mr. and Mrs. Josiah Keen, who have been residents of the district for fourteen years; Mr. and Mrs. George Dryer and family, residents for ten years; Mr. and Mrs. W. McKay, residents for seven years, and Mr. and Mrs. V. S. Miller, of four years standing. About one hundred people comprised the party. D. R. McIvor acted as chairman and toastmaster, while principal among the speakers and entertainers were Dr. and Mrs. Donald, H. C. and Morrison, C. V. Hodgson, G. J. and Mrs. Bundy, B. O. and Mrs. Morrow, Mrs. McPherson, Geo. Young, Mr. Cowley, Mr. Pegmore of Lethbridge, and Dr. O. Little, of Blairmore.

During February, more than 113,000 persons, or more than 11 per cent of the entire population, died in Petrograd, according to Russian police statistics just received in Paris. On February 1, the total population of Petrograd was 990,000. In addition to the deaths during the month 77,000 persons left, and on March 1, the population was 800,000. United States relief workers who left Moscow on Feb. 12 say that death in that city early in February was aged 4000 a day. They say conditions there were similar to Petrograd, where smallpox, typhus and starvation and hunger plague were raging unchecked. Coffins are no longer sold in Moscow, but are only rented for use at funerals.

Private J. Archibald returned from overseas on Monday morning.

Macbeth, the great Shakespearean drama, at the opera house, two nights, April 18th and 19th.

A social evening will be held Wednesday next in the Oddfellows hall under the auspices of the I.O.O.F. Lodge.

"They and Aby" will be the attraction at the opera house on April 8. Watch for further announcements next week.

The party who took two billion balls from Caton's pool room last week should return them as he needs two balls badly.

Fred Roe, of Elko accuses the Enterprise of putting new shellac old chestnuts. Fred is heart and soul original, and was born originally.

FOR SALE OR TRADE—Mack & Risch Player Piano with about 100 rolls of music. Call at Enterprise.

FOR SALE—Quarter Section land near Lundbreck. Good buildings and water, \$15 per acre. Apply to J. A. McDonald Blairmore.

A grand ball will be given in the opera house by the ladies of St. Anne's Catholic church on Friday, April 25th.

A Yank and a Tommy were thrown together in France and were fighting with each other in telling tall stories. "I saw 500 Germans drowned in Champaigne," said the American. "That's nothing," Tommy answered. "At Zeebrugge there were three German submarines sunk in port."

Alberta is being urged to take France as its model for thriftiness. There are 800,000 families in France holding railway bonds, 15,000,000 persons who have savings accounts in government banks, and 2,000,000 with savings accounts in other banks. To move the French national ledger in which is kept a record of the people's money deposited with the government, required nine freight cars. This transportation problem developed when the capital was moved for a few weeks at the beginning of the war.

Cowley citizens gathered together on Monday night, and extended a farewell banquet to Mr. and Mrs. Josiah Keen, who have been residents of the district for fourteen years; Mr. and Mrs. George Dryer and family, residents for ten years; Mr. and Mrs. W. McKay, residents for seven years, and Mr. and Mrs. V. S. Miller, of four years standing. About one hundred people comprised the party. D. R. McIvor acted as chairman and toastmaster, while principal among the speakers and entertainers were Dr. and Mrs. Donald, H. C. and Morrison, C. V. Hodgson, G. J. and Mrs. Bundy, B. O. and Mrs. Morrow, Mrs. McPherson, Geo. Young, Mr. Cowley, Mr. Pegmore of Lethbridge, and Dr. O. Little, of Blairmore.
